

CHAPTER 51: AYAME'S WORRIES

SCALP
NO 10

THAT'S LET'S
BEFORE THE
LABORATORY

ALL BLOOD
TESTS AND
LABORATORY
RESULTS
WILL BE
REVIEWED

WE CAN
PROCEED TO
TREATMENT
-TUTION
ANYONE

FEEL IT
THAT'S
THE
LABORATORY

SORRY FOR
THE WAIT.

DR. HANCOCK,
THE TRANS-
PLANT TEAM
IS BACK.

OPEN
IT UP.

YES,
THANK
YOU.

HERE'S
THE LIVER.

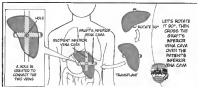

OK,
THANK
YOU.

WE'LL
EXAMINE THE
GRAFT ON THE
BACK
TABLE.

WELL
WISHING FOR
THIS SORGERY
TO FAIL, SHE
POINTS OUT
THINGS THAT
ABOUT POSS
PROBLEMS TO
IT

SHIT'S ONE
ACKNOWLEDGE
WONDER

ANYWAY,
WE'RE IN
AURIE
NOW.

THAT WERE
NO ONE
WOULD
SUSPECT
HER IF IT
FALLS...

YES,
NOW

WE'RE
STARTING
AGAIN.
LET'S
HURRY

WE'LL THINK
OF OTHER
WAYS TO
COUNTER
THE WEIGHT
PROBLEM.

YES
PLEASE DO

WELL, THAT
MIGHT
BE TRUE.

MAYBE DR. SALON IS JUST
LIKE A GOD. HE
CAN ACTUALLY
OVERCOME ANY
HURDLES.

HEART

SOMEHOW IT
SEEMS THERE
WOULDN'T BE ANY
PROBLEMS
WITH THE
SLIDING.

P-PLEASE
DON'T SAY
SUCH SCARY
THINGS!

THIS IS A VERY
DARK SITUATION
EVEN WOULDNER
UNEXPECTED
PROBLEMS THAT
EVEN MOTO
CAN'T COUNTER
COULD ARISE
ANYTIME

BUT THAT
DOESN'T
MEAN HE
IS A GOD

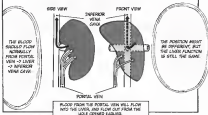

WELL, THAT
MIGHT
BE TRUE.

WELL,
NOW
CONNECT
THE
PAPERWORK
WAS
GIVEN.

LIVER BLOOD FLOW AFTER SURGERY

REMOVED CLAMP.

PUMPING
BLOOD
INTO LIVER.

YEAH,
NOTHING
UNUSUAL
FOR NOW.

BROTHER,
HOW'S
THE
PATIENT
DOING?

W-WHAT
IS GOING
ON INSIDE?

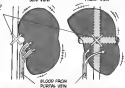

OUTFLOW BLOCK DIAGRAM

FOR SOME
REASON,
THE BLOOD
CAN'T GET
THROUGH
THE
INFERIOR
VENA
CAVAL

SIDE VIEW

FRONT VIEW

AN OUTFLOW
BLOCK IS A
CONDITION WHEN
BLOOD FROM THE
PORTAL VEIN CAN'T
FIND A SMOOTH
WAY OUT THROUGH
THE INFERIOR VENA
CAVAL, CAUSING THE
LIVER TO SWELL,
WHICH IS FATAL...

AT THIS
RATE, THE
LIFE WILL
BE IN
DANGER!

WELL, IT'S
STILL NOT
ENOUGH.

THE SWELLING
HAS STOPPED,
BUT THE SWOLLEN
PART WILL KEEP
DAMAGING IT...

I'VE
CLAMPED
THE
PORTAL
VIEW!

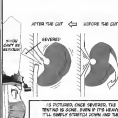

TOO
LATE!

THE BLOOD
SHOULD HAVE
STOPPED
FLOWING IN
NOW...

THAT ARTERY WILL
IMMEDIATELY CLAMP THE
BUT CUT FOR BLOOD
FROM THE LIVER.

AS PICTURED, ONCE SEVERED, THE
TESTING IS DONE. EVEN IF IT'S HEAVY,
IT'LL SIMPLY STRETCH DOWN AND THE
BLOOD WILL HAVE A CLEAR WAY OUT.

IN THAT
CASE, I'LL
SEVER IT
AND HAVE
IT ONE
WAY.

IF YOU CUT IT, THAT
THAT THE BLOOD
FROM THE LOWER
HALF OF THE BODY
WILL LOSE ITS
WAY.

BUT THE INFERIOR
VENA CAVA CARRIES
BLOOD FROM THE
LOWER HALF OF
THE BODY TO THE
HEART...

SEVERED
INFERIOR
VENA
CAVAH

IN THE WORST
CASE SCENARIO
IT COULD LEAD
TO THAT
